1-day Workshop on Programme Risk Management - Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

Build SMART Conference 2015
13 & 14 October 2015 @ Singapore Expo

As one of the key events at the annual Singapore Construction Productivity Week (SCPW), the Build Smart Conference 2015 provides a platform for practitioners from different disciplines to gain insights of overseas and local advancement towards construction productivity, its technologies, processes and concepts, business case, as well as exemplary projects. Day 1 of the conference will focus on productive construction technologies and project management; and Day 2 will focus on building information modelling (BIM) and virtual design & construction (VDC).

CPD POINTS
- PEB: 7 PDUs (13 Oct)
- 6 PDUs (14 Oct)
- BOA-SIA: Pending
- IES-ACES (RES/RTOS): Pending

2-day Course on
Sustainable Facility Management Solutions

The role of facilities managers is to manage the operations of buildings and to minimise operational life cycle costs, as well as the impact of buildings on the built environment. With globalised competitiveness in business operations, FM professionals need to be knowledgeable about business management, strategic planning, construction management and engineering towards sustainability in FM.

The 2-day course aims to provide the participants with the knowledge on how to make a business case for sustainability; establish programs to reduce, reuse and recycle; the analysis of the life cycle costing of sustainable buildings and carrying out building commissioning.

BCAA – IOSH Singapore Branch Workplace Safety and Health (WSH) Conference 2015
Vision Zero - Achieving WSH Excellence in the Construction Industry

The Construction sector's WSH performance has shown improvement since the introduction of “Implementing WSH 2018 for the Construction Industry Sector in Singapore” in 2010. The fatality rate has dropped from 8.1 per 100,000 workers in 2009 to 5.5 per 100,000 workers in 2014. However, to make a lasting and long-term change, we need to create a mindset of prevention throughout the entire Construction ecosystem. WSH Council launched the Vision Zero movement at the National WSH Campaign 2015 with the message, “I can prevent all injuries and be healthy at work.”

Embracing the Vision Zero movement, this BCAA-IOSH Singapore Branch’s WSH annual Conference will present topics in the following key areas with emphasis to construction industry which are presented by renowned overseas and local speakers.

Part-Time Evening Courses

- Specialist Diploma in Workplace Safety & Health  (SDIPWSH)
- Advanced Certificate in Workplace Safety and Health  (ACWSH)

Under the legal framework of Workplace Safety and Health (WSH), a WSH Officer or a WSH Co-ordinator must be appointed depending on the contractual sum of the construction project. A WSH Officer must be appointed if the contractual sum is $10 million or more; whereas a WSH Co-ordinator must be appointed if the contractual sum is less than $10 million.

The Specialist Diploma and Advanced Certificate in WSH are recognised qualifications by the Ministry of Manpower. It will also prepare participants to take up the role of WSH professionals such as WSH Manager, WSH Advisor, WSH Specialist, WSH Supervisors etc.

Next Run:  Oct 2015
Venue:  BCA Academy

Course Fee Subsidy  
(I&T apply)
- For SDIPWSH, upto 70%
- For ACWSH, upto 90%
