Build Smart Conference 2014
Conference | Workshop
MAX ATRIA @ SINGAPORE EXPO

The Build Smart Conference 2014 is a key event of a week-long industry-wide campaign to raise awareness in enhancing construction productivity. The conference will feature presentations and sharing by international and local members of the BCA's Productivity-International Panel of Experts (IPE) and prominent built environment industry professionals.

BUILD SMART CONFERENCE (14 & 15 OCT 2014)
- DAY 1: PRODUCTIVITY WITH MODERN TECHNOLOGIES AND PROCESSES
- DAY 2: INNOVATE - INTEGRATE - TRANSFORM WITH BIM

CPD Points
PEB: 5 PDUs (Day 1) / 7 PDUs (Day 2)
BOA-SIA: 5 CPD Points (Attendance on both days is required to qualify)

WORKSHOP ON GAME-CHANGING CONSTRUCTION TECHNOLOGIES (13 OCT)

CPD Points
PEB: 3 PDUs
BOA-SIA: 1 CPD Points

Special Discount for:
- Group of 3 registrations from same organisation
- BCAA Alumni / card holders / BCA Young Leaders

BCA-REDAS
QUALITY AND PRODUCTIVITY SEMINAR 2014

Our built environment is in a transformation process that requires industry stakeholders to identify and adopt better construction methods and technologies to meet rising quality expectations.

This seminar aims to raise awareness of the modern quality and productivity techniques and technology adoption among developers, consultants, builders and contractors.

CPD Points
PEB: 3 PDUs
BOA-SIA: Pending
IES-ACES (for REs/RTOs): 2 STUs

Date: 30 Oct 2014 (AM)
Venue: BCA Academy

To register, CLICK HERE!

Certified Quality Mark/CONQUAS Manager or Supervisor will enjoy substantial course fee subsidy!
2-day Engineering Workshop on
Material Recycling for Sustainable Construction

The course is designed to cover key areas that professionals will consider when adopting recycled materials, which include concept and approach, engineering consideration and application.

Engineers and builders can derive value and knowledge from the course through familiarisation with the selection and application of sustainable materials to prepare for the upcoming revised BCA Green Mark assessment criteria.

**CPD Points**
PEB: 10 PDUs
BOA-SIA: Pending

8th Run Date: 10 & 11 Nov 2014
Venue: BCA Academy / Samwoh Eco-Green Park

To register, CLICK HERE!
2-day Course on
BIM Planning (Building Developers and Facility Managers)

Building Information Modelling (BIM) allows the building professionals of various disciplines to explore the building project digitally, before it is built. BIM can help to bring about greater integration and collaboration among the developers, designers, builders and fabricators across the construction value chain.

Starting with architectural BIM e-submissions in 2013, BCA will mandate electronic submissions in BIM format for architectural, structural and M&E plans of building works for regulatory approval by 2015. This 2-Day BIM Planning Course is designed to address BIM uses and approaches for building developers and facility managers.

**CPD Points**
PEB: 13 PDUs
BOA-SIA: Pending

**13th Run Date:** 10 & 11 Nov 2014
**Venue:** BCA Academy

To register, CLICK HERE!
4-Evening Course on

Site Investigation For Engineers

This course will provide practicing engineers a good insight into the importance of geotechnical site investigation and its process. Participants will also learn to interpret soil investigation reports to ensure safety of geotechnical works and surrounding structures

CPD Points
PEB: 12 PDUs
IES-ACES (for REs/RTOs): 12 STUs

20th Run Date: 11, 13, 18 & 20 Nov 2014
Venue: BCA Academy

To register, CLICK HERE!
2-day Workshop on
Protection against Lightning for Buildings

Singapore experiences the highest incidence of lightning strikes in the world. These lightning strikes have caused major disruptions to main systems equipment and considerable damage to building structures.

This 2-day workshop will provide participants with an understanding of the effects of lightning and various lightning protection methods for building structures. It will also cover various analytical methods for the performance assessment of lightning protection systems. The new Singapore Lightning Protection Code SS 555:2010 which is mandatory for building structures in Singapore will be discussed.

CPD Points
PEB: 14 PDUs

9th Run Date: 12 & 13 Nov 2014
Venue: BCA Academy

To register, CLICK HERE!
1-day Course on CORENET e-Submission System Training

CORENET e-Submission System (eSS) is a G2B (Government to Business) Internet-based system that allows industry professionals to submit their projects related documents electronically to regulatory authorities for approval without the constraints of time, nor physical distance. It is a one-stop, non-stop convenient point of access for round-the-clock submission via the internet, converges all regulatory application requirements, from development & building plans compliance, to building maintenance and certification of statutory completion.

Objective of the course is to equip users with the skills and knowledge to navigate and use eSS, especially in submitting their applications online. To date eSS is capable of allowing the public to submit electronic plans and documents from their homes and offices to more than 10 different government agencies.

**CPD Points**
- PEB: 6 PDUs
- BOA-SIA: Pending

**Re-Run Date:** 13 Nov 2014
**Venue:** BCA Academy
