Supervise Construction Work for WSH
(Also known as Building Construction Supervisors Safety Course - BCSS)
This is a mandatory training course for individuals who are assigned to undertake the role of a supervisor in the construction industry. Workplace Safety and Health (Construction) Regulations 2007 Reg. 9 (2b) stipulates that no person shall be employed to oversee or supervise any work or process carried out in a worksite unless the person has received adequate safety and health training for the purpose of ensuring that such work or process can be carried out safely. This course would be appropriate for individuals who are construction site supervisors & foreman, RTOs and site engineers.

Course Dates: 17, 19, 24 & 26 Jul 2017 (4-days class)
1 Aug – 23 Aug 2017 (12-evenings class)

Venue: BCA Academy

2-Day Workshop on **Practical Applications of WSH Legislations in Construction Projects through Case Studies**

Statutory legislations such as *Workplace Safety and Health Act (WSHA)* and its subsidiary legislations are not usually easily and fully understood in terms of their intent, meaning and implications by industry practitioners - who either do not have legal background or only possess minimum legal knowledge.

This practical workshop, through interactive learning activities and real-life case studies & court cases, will provide participants a clear understanding and appreciation of legal responsibilities of construction and safety personnel under the WSH Act and regulations.

**CPD Points**
- PEB: Pending
- WSH-CPD: 14 SDUs
- IES-ACES: Pending (Safety)

**3rd Run Date:** 13 & 14 Sep 2017  
**Venue:** BCA Academy
