SIA Upcoming Events:

SIA Professional Knowledge Series: Tower Shaped Car Parking System

"Tower-Shaped Car Parking System" has been continuously innovating and evolving for more than 30 years in Japan in order to provide one of the most effective solutions for car park space saving in all major Japanese cities.

Recently the rapid population growth and urban development in Singapore are causing a serious car park shortage. However, the current environment of car parking in Singapore won’t be exactly ideal in near future and the car park planning in design stage might be still overlooked sometimes.

The basic knowledge and precise understanding on Tower-shaped Car Park System in this seminar will contribute the freedom to design for architects and will improve the quality of urban city environment in Singapore.

EVENT DETAILS
Date : 19 September 2013, Thursday
Time : 7.00pm - 9.00pm
      (Registration will start from 6.30pm onwards with refreshment)
Venue : Singapore Institute of Architects
        SIA Theatrette Level 1
        79 Neil Road (S) 088904
BOA-SIA CPD : 2 CPD points
Seminar fees : SIA Members* (Complimentary),
              Non Members ($45.00)
              (fees inclusive of GST)
Closing date : 16 September 2013

* For SIA Members whose registrations have been confirmed, attendance is compulsory. Absentee/Cancellations 3 days or less before the event will be charged at $20.00. Verbal notification of cancellation is not acceptable.

** Registration for attendance of seminar shall be closed 30 mins after the seminar commences.

SIA Professional Knowledge Series: Understanding ABC Waters Design Features

Synopsis #1
Understanding ABC Waters Design Features And Insights Into Structural Detention and Retention Features

The Addendum to the PUB code of practice on surface water drainage published in June 2013 specifies the maximum allowable peak runoff from a development discharged to public drains. What are the options open to Architects to meet this new requirement and how will it affect design? This sharing session will go through the recommended ABC water design features proposed in the code of practice and also the available solutions in the market.

Synopsis #2
Case Studies of ABC Waters Project – Lower Seletar Family Bay and Yishun Pond

The successful implementation of an ABC Waters Project requires an integrated effort from multi-disciplinary professionals, such as masterplanners, architects and engineers. This talk discusses various key considerations and challenges (such as hydrologic, hydraulics, treatment effectiveness and maintenance issues) in designing ABC Waters Design Features; through case studies such as Lower Seletar Family Bay and Yishun Pond.

** Registration for attendance of seminar shall be closed 30 mins after the seminar commences.
**13th SIA Architectural Design Awards**
The SIA Architectural Design Awards (SIAADA) is the most prestigious award conferred by Singapore Institute of Architects (SIA) to promote and encourage distinction in architectural design. The Awards recognises the achievements of SIA Members in their pursuit of architectural excellence and motivates architects to push the boundaries with innovative solutions. SIA hopes to imbue Members with the relentless mindset of continually achieving greater heights, leading to the vision of Singapore architecture and architects being acknowledged as world class standards. The Awards also aim to heighten the appreciation and patronage of good architectural design from both the architectural fraternity as well as the general public.

**1st SIA-Rigel Bathroom Design Awards**
The SIA-Rigel Bathroom Design Awards (SIARBDA) were established to stimulate and encourage new ideas, innovations and development in the world of intelligent bathroom design. The organisers’ aim is to foster greater effort and commitment to the advance of sanitary technology and design.

The lecture will feature the sharing of the design philosophies and concepts by the top winning designs of the following awards:
- SIAADA: Building of the Year
- SIAADA: Best Project Under $1.5 Million
- SIARBDA: Bathroom Design Award (Completed Category)
- SIARBDA: Bathroom Design Award (Hypothetical Category, by professional)
