Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)

- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
5 day Course on **Lift and Escalator Course for Engineers**

This course aims to deepen the understanding of practising engineers in the examination, inspection and testing of lifts and escalators.

Professional Engineers in Mechanical or Electrical Engineering discipline should attend this course. Other technical professionals working in the lift and escalator industry who wish to gain knowledge in lift and escalators may also attend the course.

Seminar on

Ensuring Safe Design & Construction – Transforming Our Built Environment
(In Compliance with Building Control Act & Regulations)

In recent years, innovative construction technologies including Prefabricated Prefinished Volumetric Construction (PPVC) and Mass Engineered Timber Structures such as Glued Laminated Timber (Glulam) and Cross Laminated Timber (CLT) have been adopted in a number of projects.

This seminar aims to raise the safety standards of the industry and share good practices as well as shortcomings observed in both the design and construction of building works, in particular in changing the way we build through the use of game-changing technologies.

2-day Workshop on

Behavioral Safety for The Construction Industry

While safety is influenced by a number of factors, positive behaviour from workers towards safety is considered one of the key factors in preventing accidents at workplace. A successful introduction of behavioural safety process, focusing on identifying and reducing unsafe behaviour and reinforcing safe behaviour, is one way to improve safety at workplace.

Behavioral Safety is a methodology used to improve safety culture through change of behaviour of working personnel in an organisation. This methodology has been applied successfully in other industries, namely in petrochemical and manufacturing sector, and is gaining popularity in the construction industry.

3-day Course on **Management of Water and Environmental Services for Estate Managers**  
*(Partnership with PUB and SEI)*

Property and facilities management is a growing industry in Singapore. With the increasing number of strata residential developments in Singapore and rising expectations from the home occupiers for proper maintenance of the estate, it is essential to equip the estate managers in effective management of their facilities and premises, in particular to the water supply, sanitary, drainage systems and environmental control.

The course aims to provide an overview of the relevant local authorities’ regulatory requirements and guidelines. It will highlight the good management and maintenance practices for water, drainage and sewerage services, wet facilities and waste collection system. Water Efficiency Measures will also be covered.

4-Month Part-time Certificate Course in
Interior Finishing Co-ordination

Interior finishing and decorating are major components of a building’s cost. Today, clients demand high quality interior finishes in commercial and residential spaces. The coordinating of interior decoration projects is a professional role that requires specific skills.

This course will develop participant’s coordination skills in interior finishing and enhance the confidence to undertake new role. It will also prepare participant to assume higher supervisory and management role in this specialised area of work. It will also allow career opportunities as coordinators for interior design and decoration firms.

1-day Course on **Way-finding and Signage Design**

Way-finding and signage design should be considered holistically as part of the building and facilities planning process. This is to ensure that people can have safe and easy access to amenities and facilities provided in a building. Through this course, the participants will have a good appreciation of how way-finding plays a vital role in Universal Design (UD), especially in supporting the ageing population; learn of the principles, design considerations and communication strategies of way-finding and signage; and be familiar with the design requirements set out in SS 599:2014 Guide for Way-finding Signage in Public Areas. The Instructor, Mr Ken Chong will also share his experiences through the use of positive and negative case-studies.

Certification Course for

Universal Design (UD) Assessors

This course aims to provide an overview of the various aspects of adopting an inclusive approach to design. The course will adopt a multidisciplinary approach to gain an appreciation of UD through the direct contact with varied user groups in a focused context; the pragmatics of UD supported by an understanding of the theoretical framework; and the ability to source for and apply qualitative & quantitative information regarding the fit between human and the built environment.

This certification course will meet the forthcoming new requirement for mandatory training under the framework of Public Sector Panels of Consultants (PSPC) for Architectural Consultants and Project Managers.
