Managing contracts has become part of our daily jobs and ignorance is not a privilege. It has become even more important now for contract managers to clearly understand contract law as contracts can also be made electronically via email or over the internet. Proper management and administration of a contract is crucial in order to reduce your risk exposure to legal claims.

This workshop will review construction contracts (including draft aspects and resolving uncertainties), its administration and management during the different phases/stages of the project delivery process, and explore the various claims and appropriate dispute resolution.

Laures Solutions recognizes that the skillful management of a contract determines the outcome of any defects, delay, failure and claims. Construction Contract Administration & Management workshop will equip you with strong knowledge of contract terms and conditions that will help you save money and avoid disputes! Register now and start building up on that knowledge now.

Attend Contract Administration and Management Workshop Now to:

- Understand how to minimize heavy losses by incorporating key insurance and indemnification provisions in contracts
- Learn effective ways of drafting and managing different stages of construction contracts
