Your skills. Your asset. Your future.

SkillsFuture is a national movement to provide Singaporeans with the opportunities to develop their fullest potential throughout life, regardless of their starting points. Through this movement, the skills, passion and contributions of every individual will drive Singapore’s next phase of development towards an advanced economy and inclusive society.

ABOUT SKILLSFUTURE MID-CAREER ENHANCED SUBSIDY (MCES) SCHEME

The Government is increasing the subsidy in recognition that mid-career Singaporeans often require significant re-skilling in the middle of their careers. Mid-career individuals may face higher opportunity costs and competing demands in the form of job and family commitments relative to younger individuals in pursuing training. Hence, the increased subsidies to encourage mid-career individuals to upskill and reskill.

Under the SkillsFuture MCES scheme, from 1 October 2015, Singaporeans aged 40 and above will receive up to 90% course fee subsidy.
