2-day Course on
Sustainable Facility Management Solutions

The role of facilities managers is to manage the operations of buildings and to minimise operational life cycle costs, as well as the impact of buildings on the built environment. With globalised competitiveness in business operations, FM professionals need to be knowledgeable about business management, strategic planning, construction management and engineering towards sustainability in FM.

The 2-day course aims to provide the participants with the knowledge on how to make a business case for sustainability; establish programs to reduce, reuse and recycle; the analysis of the life cycle costing of sustainable buildings and carrying out building commissioning.

4-evening Course on

Understanding Obligations and Liabilities in Building
and Construction Works with focus on Building
Control Act

The stakeholders of construction projects often incur liabilities due to their failure to
recognise and comply with certain implied obligations which may arise during the
design and construction processes. It is, therefore, imperative for the project parties to
understand the implied obligations and liabilities prior to the commencement of
construction projects.

This course will provide the participants with an insight into the obligations and liabilities
of the key players in building and construction works, with focus on the Building Control
Act. It will cover the various obligations under contract, tort and statutory duty in building
and construction works. The main focus will be on the regulatory framework of the
Building Control Act and the recent developments of the Act.

**CPD Points**
- PEB: 12 PDUs
- BOA-SIA: Pending

**2nd Run Date:** 24, 26 Nov, 1 & 3 Dec 2015
**Venue:** BCA Academy

2-Day Workshop on BMSMA for Building Management Personnel

To meet the high expectations of home owners and residents, building management personnel need to be well equipped with the knowledge of the governing laws and related procedures for the management of estates. In addition, it is also important for them to acquire good interpersonal communication and people management skills to manage difficult and demanding clients in a positive way.

The course covers the essential procedures and laws related to estate management under the Building Maintenance & Strata Management Act (BMSMA); and provide an awareness and understanding of the crucial people management skills necessary for building management personnel.

Part-Time Evening WSH Courses

- Specialist Diploma in Workplace Safety & Health *(SDIPWSH)*
- Advanced Certificate in Workplace Safety and Health *(ACWSH)*

Under the legal framework of Workplace Safety and Health (WSH), a WSH Officer or a WSH Co-ordinator must be appointed depending on the contractual sum of the construction project. A WSH Officer must be appointed if the contractual sum is $10 million or more; whereas a WSH Co-ordinator must be appointed if the contractual sum is less than $10 million.

The Specialist Diploma and Advanced Certificate in WSH are recognised qualifications by the Ministry of Manpower. It will also prepare participant to take up the role of WSH professionals such as WSH Manager, WSH Advisor, WSH Specialist, WSH Supervisors etc.

**Next Run:** In Jan 2016

**Venue:** BCA Academy

**Course Fee Subsidy** *(T&C apply)*
- For SDIPWSH, upto 70%
- For ACWSH, upto 90%

PART-TIME SPECIALIST DIPLOMA IN

- Architectural Technology (4th Intake)
- Building Cost Management (14th Intake)
- Building Information Modelling (12th Intake)
- Construction Management (19th Intake)
- Construction Productivity (4th Intake)
- Facility & Energy Management (28th Intake)
- Interior & Landscape Design (25th Intake)
- M&E Coordination (24th Intake)

Our Specialist Diplomas are designed to provide diploma graduates with the opportunities to upgrade their knowledge to meet the ever-changing demands of the building and construction industry. Suitable for professionals and industry practitioners, the course curriculum is geared towards high-level specialised knowledge and skill sets needed in today’s increasingly complex built environment.

With their industry-oriented curriculums, these programmes will engage you in real-world training that enhances your work experience and knowledge, while enabling you to gain in-depth insight and skills in your area of specialisation. With the exception of the Specialist Diploma in Building Information Modelling & Construction Productivity which is 5 month part-time programme, the other specialist diplomas are offered as 9-month part-time programmes.

Course Dates: Starting in Jan/Feb 2016
Venue: BCA Academy
Frequency: 2 to 4 times a week
Time: 6.30pm to 9.30pm

Course Fee Subsidy is Available
