2-day Course on

Good Governance for Management Corporation
(with Enhancement)

With the increasing sophistication of property owners and their rising expectation for good governance in managing strata-titled developments, Management Council members are expected to be well-equipped with the knowledge of regulatory framework and its related accounting and auditing requirements under the Building Maintenance and Strata Management Act (BMSMA).

At the end of the course, participants will gain insights into the regulatory framework, roles and responsibilities of the stakeholders in strata developments, procedures in conducting general and council meetings of the Management Corporation, by-laws of Management Corporation and the accounting & auditing requirements that govern the managing of strata property developments. A module on handling disputes is also included.

3rd Run Date: 25 & 26 Nov 2015
Venue: BCA Academy

3-Evening Workshop on

Site Management of Precast Concrete Construction

Good site management practices and planning of precast concrete construction activities would contribute to more efficient, less labour intensive and faster construction. This interactive workshop provides construction managers with practical knowledge in the planning, execution and control of precast concrete construction. At the end of the programme, participants will be able to plan and manage precast concrete construction site activities effectively.

½-day Course on
Best Practices for Green and Gracious Builder

BCA launched the Green and Gracious Builder Scheme (GGBS) in February 2009 to raise the environmental consciousness and professionalism of builders. It is also a benchmark of a builder’s corporate social responsibility to the environment and the general public. To create GGBS awareness, BCA together with Singapore Contractors Association Limited (SCAL), launched a course on Best Practices for Green and Gracious Builder.

This half-day course consists of lecture conducted at BCA Academy followed by visit to a site by Green and Gracious Builders Award (GGBA) winner. It will serve as a platform to share the best green and gracious practices gathered from builders in the GGBS to assist participants in addressing environmental concerns and mitigating possible inconveniences to the public caused by construction works.

Half-day Course on
Code of Practice on Buildable Design

Buildable design legislation came into effect on 1 January 2001. Under this legislation, all new building projects with gross floor areas of 5000m2 and above are required to comply with the minimum buildability requirements stipulated in the Code of Practice on Buildable Design. New extension or addition to existing building is also affected by the legislation.

At the end of this half-day course, the participant should be able to understand:

a) the principles in computing buildability score
b) types of project affected by buildable design legislation and the minimum scores to comply
