MR. WILSON KHOO, CHIEF SPECIAL INVESTIGATOR (CSI) FROM CORRUPT PRACTICES INVESTIGATION BUREAU (CPIB)

Mr Khoo has served in both the Special Investigation Branch which specializes in investigating public sector corruption cases as well as the General Investigation Branch which looks into bribery cases in the private sector. CSI Wilson Khoo also handles foreign delegations and oversees CPIB’s engagements at international fora.

Synopsis:
(1) the corruption situation in Singapore;
(2) selected sections of the Prevention of Corruption Act;
(3) case studies; and
(4) some corruption pitfalls to avoid.

ER. LIM KHENG GUAN, SENIOR ENGINEER OF THE STRATEGIC ENGINEERING PROJECT DEPARTMENT, BUILDING ENGINEERING GROUP, BUILDING & CONSTRUCTION AUTHORITY (BCA)

Er. Lim Kheng Guan is a Chartered Member of the Institution of Structural Engineers (UK) and a registered PE (Civil) in Singapore. He has more than 10 years of professional experience in the design, planning, supervision and construction of various developments including commercial, residential, institutional and health care projects.

TOPIC : SITE SUPERVISION AND GOOD PRACTICES

Site Supervisor has a duty to take all reasonable steps and exercise due diligence to supervise the carrying out of the structural elements of the building works to ensure that they are constructed in accordance with the approved plans. This presentation will highlight the key tasks, responsibilities and good practices to guide the Site Supervisor in carrying out this duty. Examples of good practices and shortcomings in Site Supervision are also covered in this sharing.

ER. CHUA TONG SENG, MANAGING DIRECTOR OF KISO-JIBAN SINGAPORE PTE LTD & PRESIDENT OF THE ASSOCIATION OF CONSULTING ENGINEERS SINGAPORE (ACES)

Er. Chua Tong Seng is a registered Professional Engineer in Singapore and Malaysia, a specialist Professional Engineer and Accredited Checker in geotechnical. He is a Past President of the Geotechnical Society of Singapore, a current member of Professional Engineers Board and the President of the Association of Consulting Engineers Singapore.

TOPIC: DESIGN AND CONSTRUCTION OF UNDERGROUND MRT STRUCTURES UNDERNEATH STATION AND TUNNELS

The presentation is about a deep excavation for the construction of new main line tunnels that are undercrossing the tunnels of two existing MRT lines and formed part of a new interchange station. Some innovative construction approaches such as horizontal jet grouting and mining using rectangular shield machine to minimise the effect of the construction on the abutting live MRT structures and ground freezing will be highlighted.
