**Note:**

Base year 2010 = 100

BCA new TPI series with base year 2010 = 100 is implemented with effect from the first quarter of 2015. To facilitate comparison of TPI changes over time, the historical TPI data series were linked to the 2010-based TPI data series at the new reference period (year 2010).

L&S TPI indices from Year 2005 to 2008 were based on yearly average whereas for Year 2009 to 2014, the TPI indices were based on 4th Quarter index.

**Basket of Items:**

- **BCA:** Excludes piling, substructure works, external works and mechanical & electrical services. For building works which include public residential, private non-landed residential and commercial office.
- **HDB:** Includes building works, piling, external works and mechanical and electrical services. It is compiled based on the tender prices received for HDB’s construction works. The index reflects the price movements in construction materials, equipment, manpower and elements of competition, risk and profit allowance by contractors. The index excludes project specific design features and provisions in order to achieve a like-to-like comparison across different quarters and reflects movement of tender prices due to external factors.
- **L&S:** Excludes piling, substructure works and external works. It is based on private sector projects handled by their company.
- **RLB:** Excludes piling works and mechanical and electrical services. It is compiled based on tender returns on projects handled by the company.

**Disclaimer:**
