More details of the two Drones Masterclass are as follows.
Discover the benefits of drones in the built environment

Do you know drones can play a role in the building construction life cycle as well as design and construction of sustainable green buildings? Join seasoned expert in Construction Project Management, Richard Veldon, and leading commercial and construction dispute lawyers, Danna Er, at these two masterclasses to find out more!

Masterclass 1:

**Evolution of Drones in Construction**

24 Oct 2018 (Wed) | 9.30am - 5.30pm
Divan Nair Institute for Employment and Employability,
80 Jurong East Street 21, S600907, Hall 2

Curious about drone technology and how it will apply to each phase of the Building Construction Life Cycle? Discover how this new technology can benefit your organisation in tracking your project with incredible accuracy and efficiency. Plus, learn to determine the right equipment and formats to use as well as how to operate a drone within limits of the law.

Register now

This masterclass is suitable for:
Industry stakeholders in development, design and construction including General Contractors, Site Safety Officers, Site Engineers/Managers, Project Construction Managers, Project Managers, Land Surveyors, Architects, Quantity Surveyors, Structural and Civil Engineers and Construction Management Consultants

Masterclass 2:

**Drones as a tool in Environment and Landscape Design**

25 Oct 2018 (Thur) | 9.30am - 5.30pm
Divan Nair Institute for Employment and Employability,
80 Jurong East Street 21, S600907, Hall 2

Keen to find out how drones may be of value in the design and construction of sustainable green buildings? Learn more about drone technology and the roles it can play in infrastructure development, well-being building, renovation or retrofitting programmes for existing buildings, maintenance of garden roof and planter wall design, as well as maintenance and management of existing or new assets.

Register now

This masterclass is suitable for:
Building Owners, Building Surveyors, Facility and Property Managers, Landscape Architects, Architects, Urban and Master Planners, Environmental Consultants, FM Service Firms, Roof Garden and Green Planter Wall Contractors, Arborists, Forestry Managers, Horticulturists, Agri Managers and Security Management Staff
Richard has over thirty-five years’ experience in Construction Project Management, in both the public and private industry sectors. He is also an author of a whole series of new learning programs in building construction. Through his eBooks and e-learning programs as well as his high-profile seminars, he inspires audiences to make better choices with their practices and techniques. Richard’s fountainhead of practical knowledge will equip you with the skills to take construction project management to the next level.

Donna is recognised as one of the leading commercial and construction dispute lawyers in Singapore. She was awarded the Lawyer Monthly Women in Law Award 2018 for her outstanding legal expertise and contributions in the practice area of Dispute Resolution.

Passionate about the development of law in the international dispute resolution and construction law space, she has published extensively on issues in those areas.

Course fee for each Masterclass
SIBL Members: $220
NTUC & SIBL Alliance Members*: $280
Public: $330

Development CPD Points will be awarded. Pending BOA- Architects, PEE, SSV and RCE.

*SIBL Alliance Members: CUC Members (ACES, IES, REDAS, SCAL, SIA, SISV, SPMI, CIOB, IEA, RCS), SCL, IICS

Course fee for each Masterclass is inclusive of examination, certificate of attendance, 2 tea breaks and 1 lunch. Course fee is not subjected to GST.
