Featured Key Note Speakers

Dr Joseph Teyu Chou is the Chairman of TAIPEI 101. This appointment came as he led the company as President in 2015, achieving its best ever operational performance, highest ever merchandize sales, 2.8 million observation deck visitors, a Climate Change Leadership award, and highest ever profits. Dr. Chou has also been serving as a Director of Taiwan Financial Holding Corp, the largest state-owned bank in Taiwan.

Ms Siew Yim Cheng is the Chief Information Officer of Singapore’s JTC Corporation (JTC). She holds direct responsibility for the technology and information needs of JTC and its subsidiaries. She oversees a diverse portfolio of systems and technologies which cover, not only JTC’s corporate and business systems, but also the technology needs of JTC’s business with impact on multiple industrial estates and facilities.
The integration of technology into buildings has contributed an increase of 3.8% in building function productivity. In view of this, BuildTech Asia 2016 aims to equip builders and architects with new insights on smart building and construction methodology.

Building Material & Architectural Solutions

Look out for the gabion, which will be featured at BuildTech Asia. A gabion is a cage, cylinder, or box filled with rocks, concrete, or sometimes sand and soil for use in civil engineering, road building, military applications and landscaping.
Mixing and conveying of sand and/or mortar materials can all be done in the VSE 500. Conveying distance goes hundreds of metres allowing the transfer of materials to location with difficult access.

DELTA BEAM™ is a tested, proven and superior composite beam used for slim-floor construction. Used in multi-storey buildings of any type, its composite action allows for creative structures with large open spaces.

USG Boral Logix™ Integrated Ceiling System is flexible and environmentally efficient. It allows users to meet building requirements while transforming the ceiling lighting, air vents and other utilities into dramatic design elements by concentrating these fixtures on narrow channels.

Hometek is a Taiwanese manufacturer of video intercom and security system, for complex systems including door-phone in the house, door panel outside the house, entrance panels, and concierge panels.
