The recently launched Real Estate Industry Transformation Map (ITM) as announced by Second Minister of National Development Desmond Lee, highlighted these key initiatives for the Facilities Management Sector: “Design and build places with facilities in mind; Encourage use of smart solutions; and Build up the local talent and attractiveness of Facilities Management industry”.

Join the FM industry experts and Learn to be a Future-ready Facilities Management professional today!

In line with the recently launched Facilities Management Industry Transformation Map (ITM), the 4th edition of Facilities Management Conference 2018 will focus on SMART FM – The Next Wave of Integrated Digital Delivery to promote productivity; use of resources and smart innovation to manage the transformation into ‘Industry 4.0’.

**Why Attend:**

Bringing in industry opinion leaders to share their FM innovative technology and best practices across the built environment sector. The 2-day programme will enable our Facilities Management Professionals to:

- Spearhead innovative facilities management systems through smart solutions and proactive building management systems
- Enable the FM Professional as the strategic partner of the design project delivery team to ensure a sustainable management of the facilities over several building lifecycles
- Empower a pool of future-ready FM professionals to lead the digital transformation

**Who Should Attend:**

Held in conjunction are the 8th edition of BuildTech Asia and the 4th edition of Facilities Management Solution Expo 2018. This event will be attracting over 10,000 trade visitors from 41 countries. Don’t miss the opportunity to explore over 200 exhibiting international and regional brands, and learn how these latest advanced products and services are leading the digital transformation in the Built Environment Sector.
