GRADUATE CERTIFICATE IN WORKPLACE SAFETY AND HEALTH

Graduate Certificate in Workplace Safety and Health (Level D) is the highest level of the four following qualifications under the WSQ WSH Professionals framework:
1) Level A - Certificate in Workplace Safety and Health
2) Level B - Advanced Certificate in Workplace Safety and Health
3) Level C - Specialist Diploma in Workplace Safety and Health
4) Level D - Graduate Certificate in Workplace Safety and Health

Persons at this level are at a professional and/or managerial level of practice, and are on the way to becoming WSH Auditors.

Venue
BCA Academy, 200 Braddell Road, Singapore 579700

Date and Time
6 Sep 2017 to 5 Mar 2018
1830 to 2130
Duration: 6 months

Contact Details
Contact Person: Customer Service Officer
Email: bca_academy@bca.gov.sg
Phone: 6248 9999
Fax: 6258 0558

PRACTICAL APPLICATIONS OF WSH LEGISLATIONS IN CONSTRUCTION PROJECTS THROUGH CASE STUDIES

Statutory legislations such as Workplace Safety and Health Act (WSHA) and its subsidiary legislations are prepared by legal professionals. The structure of the legislation as well as various terms used in the legislation are not usually easily and fully understood in terms of their intent, meaning and implications by industry practitioners who either do not have legal background or only possess minimum legal knowledge. It is important that construction/project managers, supervisors and WSH personnel are educated with the better understanding of legal terms, implications of the WSH legislations, responsibilities of stakeholders, liabilities and penalties for non-compliances with respect to managing construction projects.

Venue
BCA Academy, 200 Braddell Road, Singapore 579700

PROJECT MANAGEMENT FOR PROFESSIONALS IN THE BUILDING AND CONSTRUCTION INDUSTRY

The management of construction projects requires knowledge of modern management as well as an understanding of the design and construction process. The role of project managers is to direct & co-ordinate the processes & resources during the life cycle of a project to achieve the project objectives. The course aims to prepare professionals in the building and construction industry to take on the role of project managers. The course will equip the participants with necessary knowledge on the practices of project management to successfully manage a building project through all stages of implementation.

PROGRAMME RISK MANAGEMENT

The management of project is a complex issue and can be potentially ruinous financially for both the contractor and employer if the risk and uncertainty are not managed efficiently and effectively. This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost. A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays. The case study will conclude with illustrations of how best practice programme management techniques and optimisation strategies can be effectively applied to help in the recovery of the delayed project.

Venue
BCA Academy, 200 Braddell Road, Singapore 579700

Date and Time
5 Oct 2017 to 5 Oct 2017
0900 to1700

INTER-Agency Coordinating Committee (IACC) Engagement Seminar 2017

Updates on Recent Changes in Regulations & New Policies

Chaired by BCA, the Inter-Agency Coordinating Committee (IACC) comprises representatives from various building regulatory agencies (EMA, LTA, NEA, NParks, PUB, SCDF, URA), public sector developers (HDB,
JTC) and industry associations (ACES, IES, REDAS, SCAL, SIA). The IACC primarily facilitates project teams to quickly resolve issues arising from conflicting regulatory requirements that may impede construction activities and reduce productivity.

**A REGIONAL PERSPECTIVE ON DFMA**

With the adoption of Design for Manufacture and Assembly (DFMA) gaining momentum in Singapore, there is a growing interest in DFMA regionally. This workshop is organised at this year Singapore Construction Productivity Week (SCPW) and aims to provide participants with a better understanding on the current state of development of DFMA in the region, as well its outlook moving forward.

**CIVIL DEFENCE SHELTER SEMINAR 2017 - DESIGN, CONSTRUCTION AND COMMISSIONING OF HOUSEHOLD AND STOREY SHELTERS**

Under the ambit of Total Defence, the Civil Defence (CD) Shelter Programme is part of governments plan to build up Civil Defence preparedness in Singapore. To meet the changing needs and developments in the built environment sector, the Building and Construction Authority (BCA) and Singapore Civil Defence Force (SCDF) have been working closely to continuously review the technical requirements of the CD shelters. This seminar will update industry practitioners on revisions to the household shelter technical requirements. To support the continuous drive for better construction productivity, participants will also be updated on the new initiative on precast staircase storey shelters, especially for residential projects using Prefabricated Prefinished Volumetric Construction (PPVC) concept.
