Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)

- **SkillsFuture Study Award** – up to $5,000 for out-of-pocket expenses
- **SkillsFuture Credit** - $500
- **Mid-Career Enhanced Subsidy** – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Please click on the respective SkillsFuture initiative above for further details.
1-day Seminar on
INTER-AGENCY COORDINATING
COMMITTEE (IACC) ENGAGEMENT SEMINAR 2017
Updates on Recent Changes in Regulations & New Policies

Chaired by BCA, the Inter-Agency Coordinating Committee (IACC) comprises representatives from various building regulatory agencies (EMA, LTA, NEA, NParks, PUB, SCDF, URA), public sector developers (HDB, JTC) and industry associations (ACES, IES, REDAS, SCAL, SIA). The IACC primarily facilitates project teams to quickly resolve issues arising from conflicting regulatory requirements that may impede construction activities and reduce productivity.

The seminar provides a platform for Singapore’s building regulatory agencies to share with industry practitioners on regulatory updates and future initiatives. Industry practitioners will also be able to seek clarification on current regulatory requirements, and understand how IACC can help to resolve conflicting policies implemented by the agencies.

1/2-day Workshop on
A Regional Perspective on DfMA

With the adoption of Design for Manufacture and Assembly (DfMA) gaining momentum in Singapore, there is a growing interest in DfMA regionally. This workshop is organised at this year Singapore Construction Productivity Week (SCPW) and aims to provide participants with a better understanding on the current state of development of DfMA in the region, as well its outlook moving forward.

1/2-day Seminar on

Civil Defence Shelter Seminar 2017
Design, Construction and Commissioning of Household and Storey Shelters

Under the ambit of Total Defence, the Civil Defence (CD) Shelter Programme is part of government’s plan to build up Civil Defence preparedness in Singapore. To meet the changing needs and developments in the built environment sector, the Building and Construction Authority (BCA) and Singapore Civil Defence Force (SCDF) have been working closely to continuously review the technical requirements of the CD shelters.

This seminar will update industry practitioners on revisions to the household shelter technical requirements. To support the continuous drive for better construction productivity, participants will also be updated on the new initiative on precast staircase storey shelters, especially for residential projects using Prefabricated Prefinished Volumetric Construction (PPVC) concept.

2-Day Workshop on **Practical Applications of WSH Legislations in Construction Projects through Case Studies**

Statutory legislations such as *Workplace Safety and Health Act (WSHA)* and its subsidiary legislations are not usually easily and fully understood in terms of their intent, meaning and implications by industry practitioners - who either do not have legal background or only possess minimum legal knowledge.

This practical workshop, through interactive learning activities and real-life case studies & court cases, will provide participants a clear understanding and appreciation of legal responsibilities of construction and safety personnel under the WSH Act and regulations.

1-day Workshop on
Programme Risk Management -Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

12-evening Course on
Project Management for Professionals in the
Building and Construction Industry

The management of construction projects requires knowledge of modern management as well as an understanding of the design and construction process. The role of project managers is to direct & co-ordinate the processes & resources during the life cycle of a project to achieve the project objectives.

The course aims to prepare professionals in the building and construction industry to take on the role of project managers. The course will equip the participants with necessary knowledge on the practices of project management to successfully manage a building project through all stages of implementation.

Under the Workforce Skills Qualifications (WSQ) framework, 4 levels of qualifications for WSH professionals are available.

- **Level A: Certificate in Workplace Safety & Health – 2nd Run: Starting on 26 Sep 2017**
  This course offers participants a head start and develops competencies to become a WSH Representative. This course will be ideal for individuals with limited WSH knowledge and skills.

- **Level B: Advanced Certificate in Workplace Safety & Health – 4th Run: Starting in Nov 2017**
  This course helps to prepare participants to be a WSH Co-ordinator*. It aims to equip participants with the skills to coordinate the implementation of WSH management systems and understanding of WSH regulations.
  *A WSH Co-ordinator must be appointed if the contractual sum of the project is less than $10 million.

- **Level C: Specialist Diploma in Workplace Safety & Health – 7th Run: Starting in Nov 2017**
  This course helps to prepare participants to assume the role of WSH Officer*. Participants will gain an in-depth knowledge of WSH knowledge and competencies.
  *A WSH Officer must be appointed if the contractual sum of the project is $10 million or more.

- **Level D: Graduate Certificate in Workplace Safety & Health – 1st Run: Starting on 6 Sep 2017**
  This course offers participants an in-depth knowledge to evaluate and audit the effectiveness of the WSH management system. It will prepare participants to become WSH Auditor or WSH Advisor.
