Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)

- **SkillsFuture Study Award** – up to $5,000 for out-of-pocket expenses
- **SkillsFuture Credit** - $500
- **Mid-Career Enhanced Subsidy** – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Please click on the respective SkillsFuture initiative above for further details.
build SMART Conference 2017
Embracing Innovation, Building Our Future
24 & 25 October 2017 @ Max Atria, Singapore Expo

The Build Smart Conference provides a platform for practitioners from different disciplines to gain insights of overseas and local advancement towards construction productivity, its technologies, processes and concepts, business case, as well as exemplary projects. Launched in 2011, the 2-day Build Smart Conference has been a key event of the annual Singapore Construction Productivity Week (SCPW), which is an industry-wide campaign to raise awareness in enhancing construction productivity.

Conference Highlights
PLENARY SESSION: Innovation and Productivity: The Next Step
- Design for Manufacturing and Assembly (DfMA)
- Mass Engineered Timber (MET)
- Mechanical, Electrical & Plumbing (MEP)
- Prefabricated Prefinished Volumetric Construction (PPVC)
- Virtual Design and Construction (VDC)
- Building Information Modelling (BIM)
- Internet of Things (IoT)

1/2-day Workshop on

**Achieving High Quality PPVC Projects**

As the adoption of Prefabricated Prefinished Volumetric Construction (PPVC) is gaining momentum, it is imperative that PPVC projects attain high quality. This workshop will serve as a platform for industry players to share their experience in achieving good quality PPVC projects.

Teambuild Engineering & Construction Pte Ltd, the builder for the first PPVC executive condominium – The Brownstone will share their success story in achieving high Quality Mark Score. This is followed by sharing on best practices in applying more productive and sustainable building materials for PPVC projects. Moderna Homes Pte Ltd, the first company to be awarded the PPVC Manufacturer Accreditation Scheme will also share their experience in ensuring good quality PPVC module throughout the manufacturing process.

Guided tour to selected booths at BuildTech Asia will also be conducted as part of this workshop for participants to have a first-hand experience of the materials and hear directly from the exhibitors.

BACHELOR OF CONSTRUCTION MANAGEMENT (BUILDING) (HONOURS)

Every construction project combines a variety of complex challenges. The Bachelor of Construction Management (Building) (Honours) programme will equip you with the skills and knowledge to manage complexities in construction projects in Singapore and across the world. The programme incorporates content of Building Information Modelling teaching and projects which offers a niche specialty beyond the construction management discipline.

Graduates will embark on a diverse and exciting career opportunities to be employed as BIM Manager, Construction Manager, Project Manager, Quantity Surveyor, Facilities Manager, Property Developer and self-employed Consultant.

The programme currently holds accreditation from the Australian Institute of Building, the Australian Institute of Quantity Surveyors, the Chartered Institute of Building and the Royal Institution of Chartered Surveyors. The programme is also recognised under the BCA Contractors Registration System (CRS) and Public Sector Panels of Consultants (PSPC) in Quantity Surveying.

Designed as a problem-based pedagogy, students of the full-time programme will be exposed to 16-week Industrial Experience with industry firms and trained to solve real-world challenges and be career-ready upon graduation. Students will be awarded a direct honours based on their results.

Venue: BCA Academy

Full-Time (10th Intake): Starting 23 Oct 2017

2-Day bizSAFE Level 2 Course on

Develop A Risk Management Implementation Plan

Workplace Safety and Health (Risk Management) Regulations require stakeholders such as employers, self-employed persons and principals to have the responsibility of identifying safety and health hazards at the workplace and taking appropriate actions to eliminate the hazards or mitigate the risks associated with the hazards. Risk assessment and management is the key to reduce the risks at source.

Participant who attends this course will have an in-depth understanding and knowledge on the concepts and methodologies of risk assessment and management. This course will also provide hands-on experience in the risk assessment for construction activities and development of risk management implementation plan.

2-Day Workshop on **BMSMA for Building Management Personnel**

To meet the high expectations of home owners and residents, building management personnel need to be well equipped with the knowledge of the governing laws and related procedures for the management of estates. In addition, it is also important for them to acquire good interpersonal communication and people management skills to manage difficult and demanding clients in a positive way.

The course covers the essential procedures and laws related to estate management under the Building Maintenance & Strata Management Act (BMSMA); and provide an awareness and understanding of the crucial people management skills necessary for building management personnel.
