Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit [www.bcaa.edu.sg](http://www.bcaa.edu.sg) – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
2 day course on **Registered Earthworks Supervisor Course**

Gas pipelines play an integral support role in the transmission of power. Similarly, electricity cables serve as an important link in supplying reliable transmission and quality power to consumers. Hence, adhering to good practices in cable and gas pipe damage prevention during earthwork, is critical to prevention of disruption to power supply, potential financial loss and delay in project delivery.

The Registered Earthworks Supervisor course aims to provide an overview of the relevant earthworks legislation and code of practice relating to construction earthworks carried out in the vicinity of the electricity cables/gas pipes. Participants will learn about the key requirements of the relevant legislation, control measures and good practices to prevent damage to the underground cables, gas pipes and services.

Under the Workforce Skills Qualifications (WSQ) framework, four levels of qualifications for WSH professionals are available.

- **Level A: Certificate in Workplace Safety & Health – 1st Run: Starting on 11 Jan 2017**
  This course offers participants a head start and develops competencies to become a WSH Representative. This course will be ideal for individuals with limited WSH knowledge and skills.

- **Level B: Advanced Certificate in Workplace Safety & Health – 3rd Run: Starting on 7 Feb 2017**
  This course helps to prepare participants to be a WSH Co-ordinator*. It aims to equip participants with the skills to coordinate the implementation of WSH management systems and understanding of WSH regulations.
  *A WSH Co-ordinator must be appointed if the contractual sum of the project is less than $10 million.

- **Level C: Specialist Diploma in Workplace Safety & Health – 5th Run: Starting on 14 Feb 2017**
  This course helps to prepare participants to assume the role of WSH Officer*. Participants will gain an in-depth knowledge of WSH knowledge and competencies.
  *A WSH Officer must be appointed if the contractual sum of the project is $10 million or more.

- **Level D: Graduate Certificate in Workplace Safety & Health – 1st Run: Starting in Mar 2017**
  This course offers participants an in-depth knowledge to evaluate and audit the effectiveness of the WSH management system. It will prepare participants to become WSH Auditor or WSH Advisor.

2-Day bizSAFE Level 2 Course on
**Develop A Risk Management Implementation Plan**

Workplace Safety and Health (Risk Management) Regulations require stakeholders such as employers, self-employed persons and principals to have the responsibility of identifying safety and health hazards at the workplace and taking appropriate actions to eliminate the hazards or mitigate the risks associated with the hazards. Risk assessment and management is the key to reduce the risks at source.

Participant who attends this course will have an in-depth understanding and knowledge on the concepts and methodologies of risk assessment and management. This course will also provide hands-on experience in the risk assessment for construction activities and development of risk management implementation plan.

1-day Course on **Way-finding and Signage Design**

Way-finding and signage design should be considered holistically as part of the building and facilities planning process. This is to ensure that people can have safe and easy access to amenities and facilities provided in a building. Through this course, the participants will have a good appreciation of how way-finding plays a vital role in Universal Design (UD), especially in supporting the ageing population; learn of the principles, design considerations and communication strategies of way-finding and signage; and be familiar with the design requirements set out in SS 599:2014 Guide for Way-finding Signage in Public Areas. The instructor, Mr Ken Chong will also share his experiences through the use of positive and negative case-studies.
