**Achieving High Quality PPVC Projects**

As the adoption of Prefabricated Prefinished Volumetric Construction (PPVC) is gaining momentum, it is imperative that PPVC projects attain high quality. This workshop will serve as a platform for industry players to share their experience in achieving good quality PPVC projects.

Teambuild Engineering & Construction Pte Ltd, the builder for the first PPVC executive condominium – The Brownstone will share their success story in achieving high Quality Mark Score. This is followed by sharing on best practices in applying more productive and sustainable building materials for PPVC projects. Moderna Homes Pte Ltd, the first company to be awarded the PPVC Manufacturer Accreditation Scheme will also share their experience in ensuring good quality PPVC module throughout the manufacturing process.

Guided tour to selected booths at BuildTech Asia will also be conducted as part of this workshop for participants to have a first-hand experience of the materials and hear directly from the exhibitors.

**CPD Points**
- PEB: 2 PDUs
- BOA-SIA: 2 CPD Points
- IES-ACES (for REs/RTO): 3 STU (Structural)

**Date:** 25 Oct 2017 (am)

2-day Workshop on
Managing Project Teams Effectively

Managing people can be frustrating and demanding. It can also lead to increased stress level. In the built environment, project managers, site supervisors, facility managers and building executives are required to deal with site agents, subcontractors, material suppliers and building tenants, on issues and problems relating to inadequate site facilities, slow work progress, poor building maintenance, high rental fees, etc.

Through interactive activities, role play and case studies, participants in this experiential workshop will learn to apply the provided tools, coupled with their interpersonal skills to deal with all types of work behaviour problems.

1-day Course on
Best Practices for Green and Gracious Builder
- Improving Performance and Site Practices

Apart from setting standards for green and gracious practices, the launch of *Green and Gracious Builder Scheme* (GGBS) in February 2009 is also a benchmark of a builder’s corporate social responsibility to the environment and general public. It also helps to improve the image of the builders and built environment sector. A GGBS version 2.1 was introduced in October 2016.

This course aims to equip participants with knowledge to implement and improve green and gracious practices based on the latest requirements of GGBS version 2.1. The course will incorporate a visit to a site managed by Green and Gracious Builders Award winner, where participants will gain first-hand information and insights into successful implementation of best green and gracious practices.

**CPD Points**
*PEB*: Pending
*IES-ACES (for REs/RTOs)*: Pending
