NEW COURSES FOR 2018

IMPERIAL COLLEGE LONDON – BCA
Executive Development Programme on
DfMA AND IDD LEADERSHIP 2018
United Kingdom • 19 – 22 March 2018
Held on campus at Imperial College London

This programme supports the development of leadership capability in Design for Manufacture and Assembly (DfMA) and Integrated Digital Delivery (IDD). The programme is hosted by the Centre for Systems Engineering and Innovation at Imperial College London. They draw on leading research and practice to involve talks, activities and learning journeys that give an overview of:
- digital engineering and innovation management
- optimisation, logistics and design tools
- site visit and industrial talks
- practical challenges and DfMA digital strategy

Designed for C-Suite Executives, Senior Management and top decision makers of the sector, this programme is a combination of learning journeys, keynote lectures, and executive discussions with leading academicians, DfMA experts and practitioners from UK to understand how DfMA process from design, fabrication to assembly can be optimized; and apply digital strategy to DfMA projects.

Half-day Seminar

BUILDING PLAN AND MANAGEMENT GROUP
ANNUAL SHARING SESSION 2018
2 February 2018 • 2.00 pm – 5.30 pm • BCA Academy

The seminar serves to provide a platform for QPs and industry stakeholders to:
(a) be updated on new regulatory requirements that are in the pipeline;
(b) gather insights into non-compliances of recent projects based on BCA Building Plan and Management Group’s observation; and
(c) seek clarification on requirements, and provide feedback to BCA to fine-tune regulatory requirements.

PROGRAMME HIGHLIGHTS
General Observation of Recent Projects
Overview of BIM adoption for regulatory processing in BCA and the way forward
Design for Maintainability: Façade Access
Lightning Protection System (LPS) in Buildings
Fees Revision: Application for Plans Approval of Building Works

CPD Points
PEB: Pending
BOA-SIA: Pending

1-day course on

**Essentials of Contractors’ All Risks Policy**

Construction sites are often exposed to risks. Collapse, flooding, fire, falling debris, accidents involving workers or even damage to third party properties are among the common concerns at on-going project site. This course comprising of lectures and case studies, will enable participants to appreciate basic concepts in risk management and acquire better knowledge of the Contractors’ All Risks (CAR) insurance policy. Besides policy coverage, issues of dealing with CAR claims will also be addressed during the session.

**CPD Points**
- PEB: 7 PDUs
- SISV (QS Division): 7 CPD Hours

**Date:** 23 Jan 2018  
**Venue:** BCA Academy

BCAA Online Storefront (OSF) is officially launched.

With OSF, you can now browse, register the courses anytime, anywhere from any computer, tablet & mobile devices.

1-Year Part-Time Course on
Specialist Diploma in
UNDERGROUND CONSTRUCTION

Land-scarce Singapore has historically looked to build both upward with taller buildings and outward by reclaiming land from sea. However, another area that Singapore could do more with, is its underground space. The underground space holds possibilities for creating additional subterranean transport hubs, pedestrian links, cycling lanes, utility plants, storage and research facilities, industrial uses, shopping areas and other public spaces. Developing competency in the area of underground construction is critical to realizing such subterranean construction projects.

The Specialist Diploma in Underground Construction aims to equip contractors and consultants at the supervisory level with the knowledge in geotechnical design concepts, considerations and construction techniques so as to support increasingly complex and challenging underground construction projects.

**CPD Points**
- PEB: 84 PDUs
- IES-ACES (REs/RTOs): Pending

1st Run: Starting on 9 Jan 2018
