Many people talk about how terrible an engineering career can be.

Er. Lee Chuan Seng has had a very satisfying career in engineering spanning more than 30 years. He is now semi-retired, having handed over the day-to-day management of his company to a team that has succeeded him and further expanded the business. Er. Lee will share his experiences and also the lessons learnt that hopefully would enable you to have a satisfying career in engineering too.

Topics covered:
- Highlights of projects done in various countries
- Involvement in industry level initiatives to contribute to the profession
- Growing people in their engineering careers
- Some lessons learnt and how you can make your career a satisfying one too
- Q&A

Er. Lee Chuan Seng is Chairman of Beca Asia, a leading engineering consultancy based in Singapore, and an Executive Director of the Beca Group, New Zealand. He graduated with a BE (1st class Hons) from the University of Auckland in 1977 and was a Senior Scholar.

He has lived and worked in New Zealand, the Philippines, Indonesia and Singapore. In the 1990s, Er Lee led the expansion of the Beca Asia business into Indonesia, Myanmar and Malaysia, and in the 2000s, into China. Besides these countries, his international work experience also includes projects in Vietnam, Australia, Hong Kong, Taiwan, Japan and Korea.

He was a Vice President of the Institution of Engineers Singapore for a number of years.
He is currently a Board Member of the Singapore Building and Construction Authority as well as the Professional Engineers Board. He has served several terms on these statutory bodies which regulate the construction industry and the engineering profession in Singapore.

Er Lee was a President of the Singapore-New Zealand Business Council and is currently the Chair of the NZTE SE Asia Beachhead Advisory Board.

He is the Founding President of the Singapore Green Building Council.

In addition he currently chairs a number of industry committees, including the BCA Green Mark Advisory Committee which oversees the benchmarks for green building awards in Singapore, and the Technical Evaluation Panel for the Ministry of National Development’s S$50m R&D fund for applied research into environmentally sustainable technologies in construction. He also co-chairs the BCA International Panel of Experts for Sustainability in the Built Environment.

He was given the Outstanding Consulting Engineer Award by ACES in 2007.
