ACES-OPTILED SEMINAR OUTLINE

1 PDU accredited by PEB

Lighting control tools are often part of sustainable architecture and lighting design for integrated green building energy conservation programs. OPTILED has gone beyond the standard lighting system by collaborating with Schneider Electric.

In this interactive seminar, OPTILED will give an overview and showcase how LED lights can be controlled with the integration of wireless lighting control system.

Be in control with OPTILED’s integration into the Digital World
- How to identify good quality & ensure reliability in LED products
- What are the potential limitations when using LED lighting in projects?
- Can lighting control system be integrated with LED lighting solutions?
- Applications reference
- Product demo

Be in control with OPTILED’s integration into the Digital World

SPEAKERS PROFILE

ADA LEE – BUSINESS DEVELOPMENT MANAGER
Ada has 9 years of experience in the lighting industry and she plays an important role in developing sales strategies and new business initiatives while helping customers to capitalise on the substantial benefits of LED lighting technologies.

JOSEPH NG – SENIOR PRODUCT ENGINEER
Joseph has 3 years of experience in semiconductor manufacturing and 2 years of experience in LED product engineering. With the many years of experience and exposure, Joseph has an in-depth knowledge and the necessary expertise in LED lightings and the specifications needed.

REGISTRATION FEE
- **$15.00** for Member
- **$45.00** for Non-Member

DATE
- **29 June 2011**
